MATH 361

April 12, 2019

Problem 1. The approximate roots of the first equation are:

-1.77466

2.24957

Problem 2. Two positive solutions to $\tan(x) - x - 2 = 0$:

1.27439266

4.56114044

Two negative solutions to $\tan(x) - x - 2 = 0$:

-4.30268867

-14.0543992
